NewsFlash Fall 2022

The Humboldt Regional Centre staff have had the pleasure of registering and supporting 17 adults and over 40 children displaced from Ukraine since March 2022 along with being involved in the 2 One Stop Shops and Career Fairs in Regina throughout Fall 2022.

The One Stop Shops, facilitated by Immigration Careers and Training in partnership with provincial and federal agencies provide priority services to newly arrived displaced Ukrainians and other new immigrants to the province. Staff will be attending the 3rd, 3 day event in Saskatoon, November 24, 25 & 30th.

Our Local Immigration Partnership Coordinator worked in developing unique visual information sheets highlighting five communities in our region where capacity is available in housing, education, English as an additional language (EAL), employment, recreation, and food security. These were very well received by attendees and other provincial organizations.

The staff, along with on-site translators, made good connections with over 20 families, with some applying for employment in our region.

Working in partnership with the city of Humboldt, a central furniture storage site was cleaned, and residents have been donating larger pieces. Regional employers, Horizon School Division, Greater Saskatoon Catholic School Division, landlords and communities all play an integral part in the successful welcoming of new residents in creating a place where we all belong.

The Humboldt Regional Newcomer Centre would like to welcome all new residents to our region. Our Staff will provide on-site, remote, or virtual individual settlement planning, employment information, job search support and resume building, school registration and support for families and students to outline a few of our free of charge services.

If you, or anyone you know need more information on our services. Would like to develop partnership programming, become a Board or Advisory Group member, please contact
